customer	9	9	9	9																consult
Pressure																				
gauge					R															
absolute					A															
Output																				
4 ... 20 mA / 2-wire						1														
0 ... 10 V / 3-wire						3														
0.5 ... 4.5 V / 3-wire ratiometric						R														
customer						9														consult
Accuracy																				
0.5 % FSO							5													
customer							9													consult
Electrical connection																				
Male and female plug ISO 4400								1	0	0										
Male and female plug Micro								C	1	0										
Male plug M12x1 (4-pin), plastic								M	0	0										
Cable outlet with PVC cable [2]								T	A	0										
customer								9	9	9										consult
Mechanical connection																				
G1/4" DIN 3852											3	0	0							
G1/4" EN 837											4	0	0							
1/4" NPT											N	4	0							
G1/2" EN 837											2	0	0							
customer											9	9	9							consult
Seal																				
FKM														1						
customer														9						consult
Special version																				
standard																0	0	0		
oil and grease free																0	0	8		
customer																9	9	9		consult

[1] for nominal pressure range -1 ... 0 bar accuracy is 1 % FSO

[2] standard: 2 m PVC cable without ventilation tube (permissible temperature: -5 … 70 °C)

This price list contains product specification; properties are not guaranteed. Detailed information about options are defined in the datasheet. Subject to change without notice.
